

**Homework: Information for parents/carers (including; deadlines, support/encouragement and sanctions):**

*Throughout this academic year home learning activities in English (Carousel + weekly essay), maths (SPARX maths) and science (SPARX science) will be set on a Tuesday, with a deadline of the following Tuesday. The first piece of work will be set on Tuesday 9<sup>th</sup> September (with a deadline of Tuesday 16<sup>th</sup> September).*

*Throughout 2025-26 we will celebrate collective and individual success in relation to the completion of home learning.*

*The online platforms we have identified for home learning have a long-standing national record for improving student achievement, it is therefore important that we challenge non-completion of home learning in our efforts to promote progress amongst all students. We will use Wednesday lunchtime academic catch-ups to address non-completion of homework tasks. If any student demonstrates significant or prolonged disengagement in homework we will use reflection during Wednesday P5 as an additional sanction.*

*We would welcome your support in encouraging homework completion during the upcoming academic year. Unity between the school and parents/carers in supporting homework completion will ensure that our students establish positive routines and habits which will support them academically this year and in life after year 11.*
