

The Summer Examination Season (Special Consideration): Important information for parents/carers

There will be circumstances that arise throughout the exam season, including (but not limited to) illness, bereavement or adverse circumstances before or during the exams. In such circumstances, students may be eligible for special consideration which could result in a small increase in the number of marks achieved on the exam papers which have been impacted.

JCQ (the national exams regulator) provides guidance on eligibility for special consideration.

Please contact the school to discuss any circumstances which may enable us to make an application for special consideration - (01271) 863427.
